Most Popular!

With a built-in touchscreen, cash drawer, scanner, receipt printer and powerful software, Groovv POS All-In-One has everything you need to manage, grow and optimize your business – all without significant training or expense. This robust point of sale solution features an EMV/NFC payment device and no-fuss setup, enabling you to begin accepting payments right out of the box.

Groovv Flex Point-of-Sale (POS) --- WiFi or LTE

Includes:
- Tablet & EMV PinPad
- Portable Stand
- Available in WiFi or LTE versions
- Comprehensive Back-Office Cloud Management
- Integrated Marketing: Social Media & Contact Manager

Designed for today's merchants, Groovv POS Flex provides the versatility and tools you need to maximize revenue and run your business – contained in an affordable solution that's easy to use. With a detachable tablet and EMV/NFC payment device, foldable stand and wireless connectivity, Groovv POS Flex is a fully mobile point of sale system that keeps your business moving.

Even the smallest businesses can take their POS to the next level with Groovv POS, the comprehensive point of sale with the flexibility you need to compete and capture sales. The system is as simple as it is powerful! If you can touch or swipe, you can be the efficient person at the point of sale you always wanted to be. This 'game changing' system is available in three convenient forms with many different configurations: on a mobile phone, an all-in-one cash register or a flexible tablet POS. Any retail, restaurant, and personal services merchants can now replace those old cash registers and credit card terminals with these robust, flexible, and easy to use tools of commerce.
